To: DSD: Mining Act Review
Subject: Mining Act Review

Executive Director
Mineral Resources Division.

I am writing to express my concerns over the Mining Act Review
I believe owners of exempt under the current legislation should be given more protection and support when dealing mining companies.
I acknowledge that mining is an important part of South Australian economic prosperity.
However the adverse effects on tourism and agriculture should be given more consideration.
There is plenty of minerals(iron ore &copper) in our northern areas pastoral land and mining these areas gives the state the same benefits as mining in areas of prime agriculture and tourism.
I believe the Mining Act Review should be conducted by an independent body made up of abroad section of the community.
